Topic document

Prepared using the supplied project instructions for “Import Data using Transform Maps”. The steps and expected behavior below are based on the supplied source document and templates. Actual execution results must be added after testing in ServiceNow.

Rithika P – Team Leader

Coordinate the work, confirm the required deliverables, review the final report, and track completion.

RakeshKumar S – Implementation

Prepare the spreadsheet and document the custom table, import-set, and Transform Map setup.

Aasha V – Validation

Prepare test cases, check field mappings and imported values, and record transform-history outcomes.

Keerthika.u – Reporting and documentation

Document report and dashboard configuration, organize screenshots, and help assemble the final documentation.

Shared responsibility

All members review the workflow and verify that the final documentation reflects what was actually performed.
